

## GRADE-LEVEL PLACEMENT

The chart below suggests grade placement for each level of **VOCABULARY WORKSHOP** **ACHIEVE**. These placements reflect teacher experience and recommendations but should not be taken too literally. Teachers should determine appropriate placement based on knowledge of their students' abilities, background knowledge, and reading levels, keeping in mind that differences in levels include not only the increasing difficulty of the words themselves but also syntactical complexity and the contexts in which those words appear. The program's online diagnostic materials can also help in determining appropriate placement.

Further guidance in placement is available at Professional Development in the Teacher Resources section at [SadlierConnect.com](https://www.sadlierconnect.com).

Grade Placements	
Level	Grade
A	6
B	7
C	8
